**Subject:** [External] Comment for docket no. 2023-9-E

I am a Dominion customer and want a public hearing on Dominion's long-term resource plan.

I oppose extending the use of coal and gas.

Continued use of fossil fuels will seal our fate, pushing the planet past its ability to support of human life. Delaying the necessary transition to clean renewables will cost us more money than addressing reality now, and failing to do so will doom us. Do the right thing.

Sincerely,  
Lucinda Olasov  
Isle of Palms, SC
